

泰科图比管件有限公司

YOUR MOST RELIABLE PARTNER
值得信赖的合作伙伴

OVERVIEW 简介

Allied Group is a worldwide leading group in the production and distribution of fittings, flanges, pipes and related products.

阿莱德国际集团是世界上首屈一指的管件，法兰，钢管及相关产品生产商及分销商。

Allied Group aims to be recognized and appreciated for the ability to understand and satisfy its customers by supplying excellent products and services with efficiency, honesty and transparency.

阿莱德国际集团以高效，诚信，透明的企业理念为广大客户提供卓越的产品和优质的服务，理解并满足客户的任何要求。客户的认同与赞赏是我们体现价值的目标和动力。

The Group has 8 production plants, manufacturing from pipes and bends to special fittings. Tectubi Raccordi is nowadays the world leading manufacturer for all types of butt welding fittings used in Nuclear Power Stations and, thanks to the superior quality of its products acquired through its experience in the last 50 years, has been certified for the production for the nuclear sector in the Class 1.

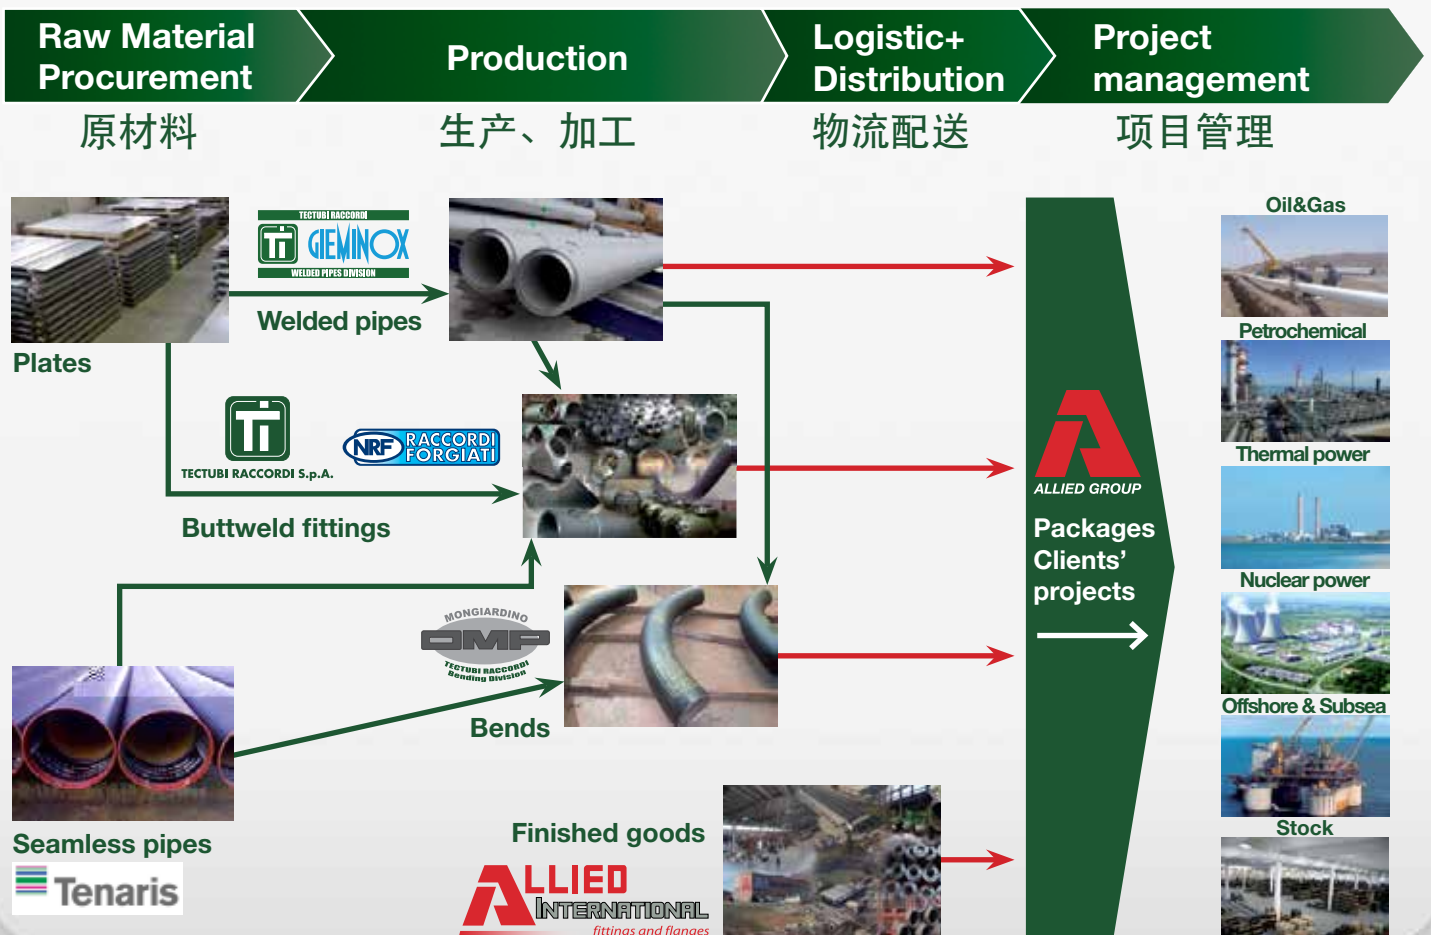

阿莱德旗下有7个生产工厂，从生产管道，弯管到特殊管件，近50年的生产经验及出众的产品质量，使得泰科图比管件有限公司在核电领域居于世界领先水平，并获得了生产核1级产品的资质。

阿莱德集团生产销售的管件，钢管和法兰产品广泛应用于石油化工，天然气管道，造船厂，火电及核电领域。公司强大的生产力及50,000件库存产品完全能够提供一站式解决方案，满足客户的任何需求。

Allied Group produces and markets fittings, pipes and flanges for oil installations, gas pipelines, ship yards, chemical and nuclear installations and, through its production capacity and stock of 50,000 items ready for shipping, becomes your one stop solution and can satisfy any demand.

阿莱德集团生产销售的管件，钢管和法兰产品广泛应用于石油化工，天然气管道，造船厂，火电及核电领域。公司强大的生产力及50,000件库存产品完全能够提供一站式解决方案，满足客户的任何需求。

FACTORIES INTRODUCTION 生产工厂介绍

- Plant - : Podenzano, Italy
- Total area - : 59,000 m²
- Main products - : 1/2" - 120" All size fittings up to 120" in all types of ferrous, non-ferrous and special alloy materials and special products
- 1/2"-102" &
- Capacity / : 17,000 ton/year - /

- Plant - : Tianjin, China -
- Total area - : 68,000 m²
- Main products - : Seamless steel fittings up to 36", weld steel fittings up to 60"
- 1/2"- 36" , 26" - 60"
- Capacity - : 15,000 ton/year - /

- Plant - : Castel San Giovanni, Italy
- Total area - : 36,900 m²
- Main products - : 1/2" - 28" Mandrel elbows in carbon and alloy steels up to 28", reducing elbows up to 24"
- 1/2" - 28" 1/2" - 24"
- Capacity - : 17,000 ton/year - /

- Plant - : Vicenza, Italy
- Total area - : 13,500 m²
- Main products - : 6" - 56" Welded pipes and clad pieps Wall thickness 3 - 60mm
- 3" - 100" 3 - 24mm
- Capacity - : 7,500 ton/year - /

- Plant - : Calendasco, Italy
- Total area - : 8,800 m²
- Main products - : 1/2" - 16" Cold formed elbows in stainless steel and special alloys up to 16"
- 1/2" - 16"
- Capacity - : 17,000 ton/year - /

- Plant - : Carbonara Scrivia, Italy
- Total area - : 50,000 m²
- Main products - : Bends: 6" - 56", wall thickness: 7 - 35mm, radius: 400 - 10,000mm
- : 6" - 56", : 7mm - 35mm, |

2

- Main products - : Hot formed and welded fittings up to 32"
- 32"
- Capacity - : 15,000 ton/year - /

Material - 材质: Carbon steel / Stainless steel / Alloy steel / Nickel alloy / Duplex / Super duplex -

Standard - 标准: ASME B16.9 / B16.25 / B16.28 / B16.49 / B31.1 / B31.3 / B31.4 / B31.8; EN10253 (DIN); GOST17374-17380, ASMEIII; ASMEVIII; RCC-M; BS1640; ANFOR NFA 49-281; DIN2605-2606-2615-2616-2617

INSPECTION TESTING 检验、试验方法

UT 超声试验
MT 磁粉探伤
PT 渗透试验
X-RAY X射线
PMI 光谱分析
Mechanical test 机械性能检测

Tensile strength test 拉伸强度检测
Chemical analysis 化学成分分析
Microscope 显微组织
Hardness 硬度
Dimension 外形尺寸
Impact test 冲击试验
Flattening test 压扁试验
Dye penetrant test 着色渗透试验。。。

STANDARD PRODUCTS 常规产品

SPECIAL PRODUCTS 特殊产品

SPECIAL FITTINGS ACCORDING TO CUSTOMER REQUIREMENTS 根据客户要求定制的特殊管件

Spheres and pig traps, fabricated pieces for furnaces and special pieces according to customer requirements

SPECIAL FLOW TEES 特殊法兰三通

Up to 120" NB, seamless and welded.
Wall thickness up to 250 mm

SLUG CATCHERS 段塞流捕集器

Finger type and multiple-pipes slug catchers

EQUAL AND REDUCING LATERALS 等、异径斜三通

Up to 120" NB, seamless and welded.
Wall thickness up to 250 mm.
Produced with various angles according to customer requirements

:120 250mm

LONG TANGENT ELBOWS 长直段弯头

Special radius elbows with straight tangent ends.
Wall thickness up to 250 mm

250mm

SEAMLESS PIPES 掏芯无缝管

Turned, bored and honed pipes.
Sizes and wall thickness according to customer requirements

A 335P92

CLAD OVERLAY PIPES AND FITTINGS 堆焊管道及管件(符合材料)

A wide range of overlay pipes and fittings for applications under the most demanding conditions and services. ID from 6"

6

LONGITUDINALLY WELDED PIPES 纵焊埋焊管

Outside diameter: from 3" to 100" as per ASTM/ASME/DIN standards
Wall thickness range: from 3 mm to 60 mm
Length range: up to 12 m

3 100 3mm 60mm
12m

SPECIAL CROSSES 特殊四通、五通

Up to 120" NB, seamless and welded.
Wall thickness up to 250 mm

:120 250mm

FITTINGS FOR NUCLEAR APPLICATIONS 核电管件

Extended end fittings for Class 1 nuclear applications, according to ASME and RCCM

1 ASME
RCCM

MANIFOLDS 多支管道

Manifolds seamless and welded according to customer requirements

REDUCING ELBOWS 异径弯头

Reducing elbows.
Wall thickness up to 250mm

250mm

BENDS RADIUS FROM 1.5D TO 10D (UP TO 10 m) 弯管 (1.5D-10D)

Sizes: hot forming from OD 3" to OD 56" width, cold forming from OD 2" to OD 60" width

10m 3 -50 2
-60

WELDED PIPES 焊管

Sizes upon request according to ASME B36.10, ASME B36.19 and wall thickness according to customer requirements

A SME B36.10 B36.19

CLAD FITTINGS 复合管件

Cold formed elbows OD from 6" to 16", hot formed elbows OD from 18" to 36", reducers OD up to 42"

6-16 18-36
42

BIMETAL CLAD/LINED PIPES 双金属复合管

Outside diameter outer pipe: from 6" to 24"
Wall thickness outer pipe: from 10 mm to 35 mm
Length range: from 2m to 12 m

6 24 10mm 35mm
2m 12m

Y PIECES Y型件

Y Pieces seamless and welded up to 120" NB, produced with various angles and according to customer requirements. Wall thickness up to 250 mm

120 250mm

Note - 注

Production type: seamless / welded

All products can according to customer requirements
